The War Today

By GUY RHOADES
FRUSTRATION
Benito Mussolini let loose another of his bombastic speeches today, but it would not be difficult to read in it a swift undercurrent of frustration and fear.

The Duce, speaking to his Fascist chiefs on the fifth anniversary of the date the League of Nations voted economic sanctions against him for the invasion of Ethiopia, shouted: "Whatever happens, I will never turn back" in the fight against Greece.

However, Italian troops in Albania and along the Greek border, harassed and pursued by the furious Greeks, continued to retreat. It is only three weeks since they were launched on an invasion of Greece, but today they appeared in acute danger of having their territory, Albania, counter-invaded. Little fighting was taking place in Greece. Most of it was in Albania.

THOSE WARSHIPS

Mussolini also denied Prime Minister Churchill's statement last week about the disabling of Italian battleships and other vessels at Taranto—but denied only the numbers and the extent of the damage.

Meanwhile his son-in-law, Italian Foreign Minister Ciano, popped up at Berchtesgaden, Hitler's retreat, and from the other direction came Spain's Foreign Minister Serrano Suner. German Foreign Minister Ribbentrop was there to meet them and the Fuehrer himself was reported atop the hill.

Observers in Berne, Switzerland, suggested some attempted "squeeze play" might be in the offing, with a joint Axis assault on Gibraltar and Greece.

MORE "DOCUMENTS"

It was noted also that Mussolini in his speech claimed the German high command in France had discovered "documents" showing Greece had offered the Allies naval bases in her territory before France fell. He said the Greeks hated Italy—which appears to be true now.

His talk indicated a change of heart on Italy's part since the controlled press, seeking the other day to excuse their lack of military enterprise, said the Italians were holding back so the Greeks might see their true intentions lay in "coming to their senses."

NEUTRALS WATCH

Around the Axis powers still lie some several neutral nations whose interest in the Berchtesgaden talks must be keen. Military zeal in the direction, say, of the Dardanelles, would concern several of them.

Mussolini warned sacrifices in his country, "endurable" now, might become more acute as times go on.

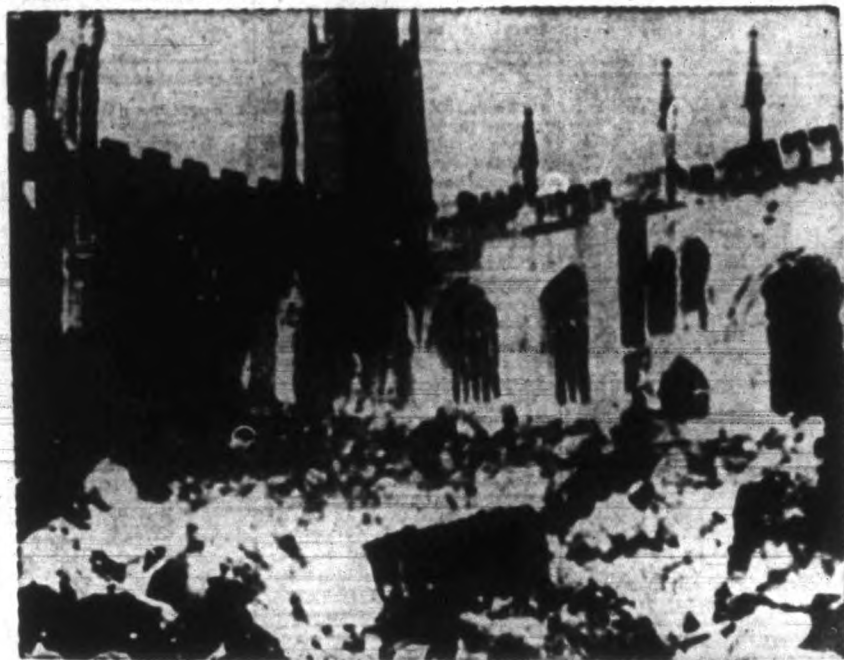

The sale of dog meat for human consumption was authorized in Germany last week.

Pamphlets Scattered

SAINT JOHN, N.B. (CP)—Hundreds of tracts described by police as similar to material distributed by the Jehovah's Witnesses sect, before it was declared illegal under the Defence of Canada regulations, were thrown into doorways in Saint John Sunday.

Following the distribution here Douglas Held, 17, of Toronto, was arrested on a charge of vagrancy.

Margaree Survivors Welcomed Home

Francis Ralph took his mother in his arms when he walked ashore on Saturday, home from two ship disasters, the Fraser and the Margaree. Then he posed with her and mother at their home, Raymond, 9, to whom he brought a real sailor's cap.

Allen and Dennis Wickes were two very excited boys yesterday when their daddy, James E. Wickes, came home after a year's absence. Here they are with their father and mother at their home, 1713 Denman Street. (See Page 14 for story on survivors' arrival.)

2 FLIERS KILLED IN ALBERTA CRASH

LETHBRIDGE, Alta. (CP)—Three senior officers of the R.C.A.F. today investigated the crash of a training plane from the Lethbridge elementary flying school with the loss of two lives Saturday.

The court of inquiry sought the cause of the smash-up, which caused the deaths of Instructor Ken Piper and Aircraftman J. T. Sinclair.

Dennis Yorath, manager of the flying school, said Piper and Sinclair, a student, took off on a routine training flight in a Tiger Moth plane at 8.25 Saturday morning and within half an hour the machine crashed north of Magrath.

The body of Sinclair will be sent to Edmonton tonight for interment. The body of Piper will be shipped to Calgary.

No More Mistakes Like That at Dakar

HALIFAX (CP)—Failure of the Free French forces to take Dakar is attributed by Edouard Jonas—by his own assertion a leader in the movement headed by General Charles de Gaulle—to "either too quick or not quick enough action." If the move had been taken in July, there might have been success, he said.

M. Jonas, a member of the pre-war French Chamber of Deputies, was in Halifax last night en route to New York, where he will confer with Eugene Houdry, chief of the Free French forces in America.

CHIEF SCOUT HL—Lord Baden-Powell, 83-year-old founder and head of the Boy Scouts, is ill in Kenya, Africa. He has lived in Kenya for his health for about two years.

130 Italian Tanks Flee Greeks Pummel Invaders

ATHENS (AP)—The Italians sent wave after wave of infantry crashing against Greek mountain positions today in an effort to prevent the capture of Koritza, Fascist invasion base, but the Greeks reported they had repelled all attacks and gained new ground.

In their desperate attempt to thwart the Greek ring of steel being drawn around this most important city in Albania, the Italians were said also to have thrown a large force of dive-bombers into the battle.

The Greek Air Force, aided by the Royal Air Force, itself bombed Italian positions heavily and pummeled troop-jammed roads leading out of Koritza, which is 15 miles inside Albania.

Greeks reported Italian mechanized columns were trapped hopelessly north of Koritza. Foreign sources said one column of 130 Italian tanks had fled into Yugoslavia.

(A Reuters news agency dispatch from the Greek-Yugoslav frontier said 600 Italian troops and 130 tanks had crossed the border and surrendered to Yugoslav authorities last night.

Greek sources had claimed Sunday that a column of 130 Italian tanks had been cut off and threatened with capture.

The hard-pressed Italians were reported falling back from Koritza to a new defence line 25 miles deep in Albania.

All along the border battle-front, Greek military reports indicated, the invasion of Greece

which Italian forces launched three weeks ago today has turned into a desperate defence of Albania from fierce Greek counter-drives.

A government spokesman declared last night that Greek mountain troops who seized new heights commanding Koritza, springboard for the Italian invasion toward Phlorina and Salonika, had driven to the very gates of the fortified city.

The Italians were reported fighting a rearguard action there to cover the withdrawal, under fire, of strong forces which barely escaped being trapped.

Try to Hold To Ridge Positions

Italian troops, beaten back in repeated counter-attacks intended to reinforce their weakening grip on the town, were said by the Greeks to be falling back to new defence lines on ridges 25 miles from the Greek-Albanian frontier and 15 miles past Koritza.

The motorized column reported cut off was said to have attempted a "last chance" dash through snow-clogged mountain passes toward the Yugoslavia road which passes between Lake Prespa and Lake Ochrida.

In the Pindus Mountain sector, north of the Greek town of Konitza, the Greeks were said by a government spokesman to be pushing into Albania.

"Our guns dominate the Konitza-Ersek road in that area," the spokesman declared, "and our troops are mopping up in the Konitza region: up to and beyond the frontier. We also captured Italian booty on the road from Konitza to Melissopotva."

GREAT BATTLE FOR KORITZA

This map shows where the Greeks are ringing in Italian columns. Dispatches told of fires in Koritza.

He added "we are mopping up the terrain" farther southwest along the Kalamis River front to the Ionian Sea.

(A British communique said Royal Air Force planes, which have dropped bombs repeatedly on Italian communications with forces in Albania, struck again over the week-end at Brindisi, Italian port opposite Albania.)

(Reports from Yugoslavia told of a third violation of Yugoslav neutrality by four foreign aircraft which crossed the border yesterday, swept through Yugoslav anti-aircraft fire and dropped 26 bombs on Kicevo and two nearby villages 40 miles from the Greek-Yugoslav-Albanian frontier. The planes, which were not identified, were pursued by Yugoslav planes.)

The Ministry of Home Security communique contained a report of Greek naval operation in the

Adriatic Sea between Italy and Rumania.

"On November 14-15," the communique said, "a Greek destroyer flotilla under Admiral Kavadian made a raid through the Otranto Channel into the Adriatic Sea. The Greek flotilla steamed as far as the island of Sasero, but nowhere sighted enemy craft, and returned to its base."

2 Italian Planes Downed in Fight

BITOLJ, Yugoslavia (AP)—Twelve Greek and British fighter planes engaged about 15 Italian bombers today near the Yugoslav border, where observers said two of the Italian planes were seen to fall after a battle of nearly half an hour.

Numerous violations of Yugoslav territory by foreign warplanes have been reported in the vicinity of Lake Prespa, at the junction of the Greek, Albanian and Yugoslav borders.

Another Raid On Brindisi

LONDON (CP)—Reports from the African and eastern Mediterranean sectors told of week-end raids on the Italian Adriatic port of Brindisi and indicated British bombs might have damaged the important railway which links Addis Ababa, Ethiopia, with the sea at Jibuti.

An Admiralty communique yesterday said British light naval units had bombed the big Somali port of Mogadiscio, hitting shipping and targets ashore and escaping damage from shells fired by Italian shore batteries.

Final Bulletins

Big Bomber Crashes

BELGRADE, Yugoslavia (AP)—An aircraft which crashed and burned on a mountain near the southern Yugoslav town of Danilovgrad, killing its crew of four, was identified officially tonight as a British Blenheim bomber.

The names of two victims were established.

The bomber apparently lost its way and struck the mountain peak or was forced down by engine trouble.

New 25-Pounders

OTTAWA (CP)—Canada is embarking on a program of construction of 25-pound field guns and it was said this afternoon at the munitions and Supply Department that these guns will be the latest designs.

Actual production of these guns is not expected much before the latter part of 1941 in Canada.

5 C.A.S.F. Deaths

OTTAWA (CP)—Deaths of five members of the Canadian Active Service Force was reported this afternoon in the 26th official casualty list issued since the start of the war.

Admit Bombing

BELGRADE, Yugoslavia (AP)—Yugoslavia tonight announced Italy had expressed regret for an "unintentional mistake" by Italian fliers whose bombs killed nine persons and wounded 21 in the Yugoslav border town of Bitolj on November 5.

It was the first official word on the identity of the planes in that raid.

Dies Stages Raids

CHICAGO (AP)—Chairman Martin Dies this afternoon announced agents of his congressional committee on un-American activities were making raids today in various parts of the country to seize documents of "Italian and German organizations."

One raid was made "successfully" in New York, he said. Ten subpoenas were issued for similar sorties in Chicago, he added.

Butter Price Up

VANCOUVER (CP)—Retail butter prices in Vancouver advanced 1 cent today to 35 cents a pound or \$1.02 for three-pound prints. Produce dealers expected prices throughout British Columbia to follow suit.

Air Trainees Come From Malaya

British airmen being inspected on arrival from Straits Settlements this morning. Left to right, Premier T. D. Pattullo, Group Captain C. A. Mercer, Air Commodore A. E. Godfrey, talking to Aircraftman R. F. Wollaston, a former pupil of Shawnigan Lake School.

Greeted by martial music and a guard of honor, a contingent of young fliers, all Britishers recruited in the Straits Settlements, arrived today to complete their training in Canada under the Empire air training scheme.

The young, bronzed airmen were welcomed by Premier T. D. Pattullo, representing the province of British Columbia, and Brigadier J. Sutherland Brown, representing Lieutenant-Governor Eric W. Hamber.

The Royal Canadian Air Force was represented by Air Commodore A. E. Godfrey, officer in charge of the Western Air Command, attended by Group Captain G. A. Mercer, Flight-Lieut. Sidney Williamson, Flying Officer J. M. MacLennan and Flying Officer John Parker.

Commissioner T. W. S. Parsons of the B.C. Police was also on the dock.

The band of the Royal Canadian Air Force, directed by Bandmaster Tuttle, played as the men disembarked; the guard was commanded by Flight-Lieut. Williamson and Parker.

"We are delighted to have you with us for a time and wherever you may go in the future we wish you good fortune and the best of luck."

"We are delighted to have you with us for a time and wherever you may go in the future we wish you good fortune and the best of luck."

AIR COMMODORE

Air Commodore Godfrey, said: "On behalf of the Royal Canadian Air Force, it gives me a great deal of pleasure to extend a hearty welcome to members of the first contingent of airmen from the Straits Settlements. You will form part of the British Commonwealth air training plan on Canadian soil, where airmen from all parts of the British Empire serve together side by side with one common ideal in view, to finish their training as soon as possible and go overseas to strengthen the ranks of their brother airmen and aid their Motherland. Your coming here is further evidence of the unity of the British Empire and the great progress taking place in the Commonwealth air training plan."

"It is not until this great air training plan gets into full swing that the British Empire will be able to bring its full aerial weight against our enemies. Therefore, every endeavor is being made to bring this about by all members of the British Commonwealth air training plan. All through your

stay in Canada you may be assured of the utmost co-operation from every member of the R.C.A.F., and you will always find the spirit of good-fellowship prevailing. Although a greater portion of your time will be taken up with training duties, I trust that your stay in Canada will long be remembered by you all as a very enjoyable and educational visit. And I want to wish you success, good luck and God-speed."

The airmen were taken by bus on a sightseeing trip. E. Slade, in charge of the Straits Settlements airmen, said: "They are a fine body of men, keen to complete their training in this country and get into action."

They have been training for nine weeks at Singapore, he said.

EDUCATED HERE
R. F. Wollaston, one of the trainees, said he was educated at the Shawnigan Lake School, and was eager to learn something of his former schoolmates here.

He was a planter in Malaya when he joined the air force.

The airmen wore a blue-gray uniform, similar to that of the R.C.A.F., with distinguishing air badges and service cap. "This is only the first contingent," said Acting-Capt. Slade. "More are coming to train in Canada from the Straits Settlements."

HERO EARNS A FINE—George Layton Morris received no medal, but a fine of \$100 (\$450) for an act of unofficial heroism in London. He disobeyed police orders and removed a time bomb from a London apartment, carrying it into a park. The magistrate praised his courage and common sense but said that only authorities could decide "in what part of London a bomb should go off."

End of Plane Strike Urged

FIRST AVIATION STRIKE IN DEFENCE DRIVE—First labor trouble to threaten the output of military planes for Britain as well as U.S. since the national defence program got under way was the strike of Vultee Aircraft employees at Downey, Cal. Workers formed a picket line and closed the plant, above, following refusal of the company to yield to demands for a higher minimum wage.

DOWNEY, Calif. (AP)—A representative of the defence commission called officials of the C.I.O. Union on strike at the Vultee Aircraft factory into conference today to determine whether the union is willing to negotiate again with the company.

N. Arnold Tolles, aide to Defence Commissioner Sidney Hillman, who called the meeting, said heads of the Vultee plant, closed since last Friday by a walkout of a majority of production workers, are prepared for further wage discussions.

Tolles and Major Sidney Simpson of the War Department arrived yesterday.

The striking union ordered its west coast director to fly to the national C.I.O. convention at Atlantic City, however, to enlist

the home of her daughter, Mrs. Basil Cornish, Vancouver. She was born in Victoria on January 29, 1875, and lived here most of her life.

Before her marriage to Herbert Macklin, she taught school at Galliano Island, and their wedding in April, 1898, was the first solemnized in the newly-consecrated Church of St. Mary Magdalene, Mayne Island. Officiating at the ceremony were the late Rt. Rev. Bishop Perrin, Bishop of Columbia, and the resident rector, Canon Paddon.

For many years Mr. and Mrs. Macklin lived on Rockland Avenue, and were indefatigable workers for the Red Cross during the last war. Mrs. Macklin was a charter member of the Agnes Deans Cameron Chapter, I.O.E.

Rev. George Biddle will conduct the funeral service tomorrow afternoon at 3.30 at Hayward's B.C. Funeral Chapel, followed by interment in the family plot at Ross Bay.

Parachutists Still Missing

EAST LAKE, Que. (CP)—Flying Officer U. J. H. Leblanc, pilot of a Royal Canadian Air Force bomber which was abandoned by its six-man crew Saturday night, landed by parachute about 50 feet from a lumber camp, Michel Plourde, owner of the camp, said today.

Plourde said the camp foreman reported lumberjacks in the camp heard the big Digby bomber roar over and, running out, saw the pilot drop down in the snow.

He said there was no word yet of the other five fliers who jumped from the bomber before Leblanc.

Plourde said the camp was about a mile and a half from East Lake, which lies in a heavily wooded and remote eastern Quebec district, near the United States border.

The bomber was heard by the 50 men in the camp "sometime before midnight," said Plourde. He described the weather as clear.

Soon after the lumbermen had reached Leblanc, they heard the bomber crash.

According to Plourde, the pilot told the camp foreman he had bailed out about 10 minutes after the other members of the crew.

The five missing members of the crew are: Flight-Lieut. G. F. Clay of New Westminster, F.O. J. G. Richardson, Saskatoon; L.A.C. H. E. Howard, Aylesford, N.S.; L.A.C. E. J. Benoit, Ottawa, and A.C. Elmer Johnson, Winnipeg.

According to information Plourde received from his foreman, it is possible the five who left the bomber before Leblanc might have dropped down either in New Brunswick territory or near the Maine-Quebec boundary.

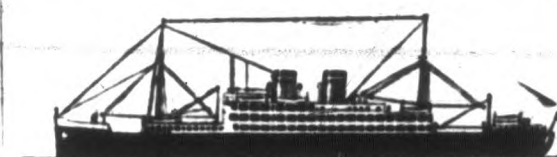

Lewis to Quit

ATLANTIC CITY, N.J. (AP)—John L. Lewis, with tears in his eyes, told convention delegates of the Congress of Industrial Organizations today he was stepping down as their president, and urged them to unite their ranks and support whoever they would name as his successor.

To a hushed throng which a few minutes earlier had given him a thunderous ovation, Lewis said: "I won't be with you long. I have done my work and in a few days I'll be out of this office." It was his keynote speech. He carried an urgent plea to the C.I.O. to remain united or it would "not long endure."

Lewis' term as president will expire at the close of the convention. MURRAY AS LEADER It is expected Philip Murray will be named as his successor. In giving notice he was about to get out of the C.I.O. leadership, Lewis fulfilled the promise he made to retire if President

U.S. Destroyers Frighten Nazis Into Scuttling Ship

Orinoco, 9,660 tons, one of the four German freighters

MEXICO CITY (AP)—A Mexican gunboat captain has reported officially, said dispatches from Tampico today, that United States neutrality patrol vessels, and not "enemy" warships caused a German merchant captain to scuttle his ship and frightened three other Nazi vessels back into Tampico harbor Friday night.

The Mexican naval officer, Lieut. Cuauhtemoc Perez Zavala, was said also to have advised the Mexican navy one of the United States ships—had entered Mexican territorial waters.

The lieutenant said he drew his gunboat, the Queretaro, between one vessel, which he identified as destroyer 233, and the German ship Rhein. He reported another of the vessels was destroyer 210.

TOLD OF "CHASE"
Capt. H. Fromke of the German steamship Idarwald previously had declared his vessel was "chased" by one destroyer to a point within two miles off the port of Tampico.

Capt. J. Schurt of the German freighter Phrygia ordered his ship scuttled, saying one of four warships had sent up flares ordering him to surrender. The German captain said they believed the warships were British or Canadian.

Newspapers here printed articles saying the scuttling of the Phrygia was hasty.

CAPTAIN'S ORDERS

She was set afire by her crew by orders of her commander.

The Orinoco, one of the ships that returned to port, is a combination cargo and passenger ship. She had been loaded with live and butchered hogs, fuel oil and other stores, suggesting to some observers here she had a rendezvous with a German commerce raider.

Mexican newspapers noted United States ships were waiting outside the territorial limits to escort the British freighter Olivebank, which sailed late Saturday. (The dispatch did not clarify why the British freighter was to be escorted.)

According to this version, it was thought possible the patrol boats sighted the Phrygia, thought it was the Olivebank, and sent up signals.

The Phrygia's master said he was too close to one of the war-

ships to flee. His officers and crew—40 men—took to lifeboats and came ashore.

BLEW UP

The Phrygia, after burning for hours, finally blew up and sank five miles off the Tampico jetties.

"On leaving the port," Capt. Schurt declared, "we saw the four ships. They fired signals, demanding that we surrender. The Idarwald and Rhein raced for shore, but due to the proximity of one warship to us and the bad condition of our vessel, we opened her and set her aflame."

At that tense moment, according to the captain's story, the fourth vessel—the Orinoco—was still in the vicinity of the harbor bar. She headed back.

The story of the flares explained why it was that no one along the waterfront had heard gunfire during the night—a circumstance which for a time had raised much speculation.

Of the four ships it developed that only the Orinoco carried a cargo. The others sailed with ballast.

Three of the vessels had given their destination as the Canary Islands; the fourth as Vigo, Spain.

Nairn Promoted

OTTAWA (CP)—Promotion of Wing Cmdr. K. G. Nairn, director of accounts for the Royal Canadian Air Force, to the rank of group captain was announced today at air force headquarters.

Group Capt. Nairn, whose home now is in Vancouver, is a native of Edinburgh, Scotland. In the first Great War he was a trooper in Lord Strathcona's Horse and later transferred to the Royal Flying Corps and served as an officer-pilot.

Roosevelt was re-elected for a third time. Lewis called on C.I.O. unions for unity among themselves and confidence in their leadership. On the labor front, he said, the C.I.O. had demonstrated its strength and piled up a record of accomplishments. "It can go forward," he said, "But if you consume your time in criticism and vituperation, you won't have an organization long. A leader, no matter how well qualified for the job, is only an individual, because if you don't give him strength, he is nothing. These are the things the C.I.O. must take into consideration if it is to endure."

Recruiting for R.C.A.F.

CALGARY (CP)—A survey of applicants for the Royal Canadian Air Force in eastern British Columbia and the Okanagan Valley will be made this week by the officer commanding the Calgary recruiting centre, Flt.-Lieut. G. A. Hodgetts. He will be in Banff Wednesday, Revelstoke Thursday, Vernon Friday and Salmon Arm Saturday.

Gelsenkirchen Again Founded

R.A.F. Spreads Ruin in Ruhr Industries

LONDON (CP)—Germany's war-vital industries in the rich Ruhr valley were reported today to have been attacked heavily by the Royal Air Force in a quick follow-up of weekend blows at Axis ports from Hamburg, Germany, to Mogadiscio, Somaliland. The Air Ministry said the main force of the British offensive last night was directed at the oil refineries of Gelsenkirchen, near the Netherlands border. Other planes bombed industrial targets in the Ruhr, it said, rail and river communications in the western part of the Reich, the naval base at Lorient, in Nazi-occupied Brittany, and airdromes in occupied territory. Even as the fliers struck, the

R.A.F. high command was shuffled to give the army an air arm nearly its own, concentrate the fighting command on solving night raid interception and breaking up Nazi bombing of convoys, and possibly to co-ordinate further United States and British plane production.

Dowding Given Mission to U.S.

The Air Ministry transferred Sir Hugh Dowding from R.A.F. fighter commander-in-chief to special, unexplained duty in the United States. One source close to the ministry indicated his mission might be to advise the United States of R.A.F. experiences with the view of standardizing United

States and British planes, thus facilitating mass production. Air Vice-Marshal W. S. Douglas, 47, was assigned to Sir Hugh's place in one of six advancements of Air Force leaders, all but one under 50.

Air Marshal Sir Arthur Sheridan Barratt, who commanded R.A.F. forces in France earlier in the war, was chosen to head the new army co-operation command—working with land forces in a close approach to a separate air force for the army.

Hint of Offensive Seen in Moves

Some observers took this as a hint Britain is getting ready for a plane-supported land offensive,

either next spring in France or in the Near East, where a separate air commander also was named.

British planes struck through a southwestern Channel gale after dawn this morning for a bombing attack on Cap Gris Nez, where German long-range guns had engaged in a duel across the strait of Dover last night with British coastal batteries.

Observers on the cliffs near Dover could see the flashes of bombs exploding along the French coast.

Flaming Destruction Wrought in Hamburg

The Air Ministry said yesterday that the night-long British bombardment of Hamburg—Sat-

urday night—Sunday morning, the second in two nights on the greatest seaport in Europe—left in flaming destruction targets that ranged from big shipyards to industries producing synthetic "but presumably edible" fats.

Returning pilots said that as they shuttled back and forth over the city with loads of heavy bombs they could see the destruction below clearly enough "to make certain that considerable damage was done."

(A German communiqué admitted that some military damage was done at Hamburg, but claimed it was "very limited.")

The Air Ministry reported other attacks on Antwerp and Dunker-

que, and airports in German-held territory.

Germans Claim Factories Hit

BERLIN (AP)—A communiqué issued today by the German high command said:

"On the night of November 17-18 British planes dropped bombs in several places in western Germany. Fires caused in an iron factory and brickworks were immediately quenched by quick action of the plants' fire squads. Furthermore, two cemeteries and again residential section were targets of British bombs. A number of houses were damaged and a small number of persons injured.

"Remember that in one year from now a man will be needed to use every gun, operate every plane and drive every truck made and on the front line of battle," he said. "There is no reason for making these machines unless we provide for their being operated."

"As minister of war services I would say, after seeing Britain in action, it will take much longer to train a soldier than it does to train labor for plants."

"Much of the labor being trained for plants in Britain," he said, "is from the classes, old and young, of either sex who cannot serve in the line."

1st CATHEDRAL TROOP

The 1st Cathedral Troop is sorry to say good-bye to Dennis Simmons, its able Assistant Scout Master, who is leaving to join the R.C.A.F. Den has been connected with the troop for many years, starting as a cub and rising to his present position in Scouts. He was also a member of the Cathedral Rover Crew. Several badges were awarded at the last meeting. These were: Laundryman's, to J. Canova and R. Barclay; carpenter's to C. Cole; leather-worker's to B. Canova. B. McKinnon was invested as a scout. The troop received instruction during the evening in first-aid, mapping and tenderfoot, and patrol competition was held.

Men Needed To Bear Arms

OTTAWA (CP)—Hon. J. G. Gardiner, Minister of National War Services, believes it would be "wise to stop much of this talk against military training for men who are making planes, munitions, arms and ships."

He said Canadian factory managers who contended they could not produce to capacity without interfering with the training of men might have to be told they were not good enough factory managers for wartime.

Mr. Gardiner, who also serves as Minister of Agriculture, was speaking on the weekly "Let's Face the Facts" program arranged by G. H. Lash, director of public information, and broadcast over the national network of

Civilians Victims In Night Raids

Britain's Channel Coast Bombed

LONDON (CP)—Sky raiders struck vigorously at Britain's south coast last night and one town in the southeast was reported to have suffered its heaviest bombing of the war. Several persons were said to have been killed.

A town on the southwest coast also was hard hit by raiders who dropped 10 high explosive bombs and many incendiaries. Many civilians were found dead in the wreckage.

The "raiders passed" signal ended the nightly London raid after dawn. The attacks on the capital were described as recurrent, but not of the heaviest type. Heavy calibre bombs were dropped in the outskirts.

The Ministries of Air and Home Security communique said:

"During the night a number of bombs were scattered near the south coast (of England) and there were a few scattered incidents in other parts of the country."

"Damage was practically confined to private houses, and reports received up to 7 a.m. indicated that neither damage nor casualties will prove heavy."

Homes Damaged In Channel Towns

"Later reports of last night's raids show that a few points in the London area and in several towns along the English Channel damage was done to a number

of dwelling houses. Casualties were not heavy, but some people were killed."

The raiders also dropped fire bombs and flares on Liverpool.

Germans Admit Plants Set on Fire

BERLIN (AP)—The German high command issued the following communique Monday:

"The air force during the night of November 16-17 and during yesterday successfully attacked London, war essential objectives in the south of the British Isles and armament targets in central England."

"In the sea region off the English east coast a merchantman

and a minelayer were sunk and another merchantman was hit severely. Long-range batteries of the army and navy took under fire an enemy convoy which tried to pass through the Channel close to the English coast under the cover of darkness. The convoy was dispersed. The ships fled into several English ports."

"In the air fights over the Channel, three British planes were downed yesterday. Seven German planes are missing. The pursuit squadron commanded by Maj. von Maltzahn scored its 51st air victory November 15."

"Thirteen German aircraft were destroyed over Britain and the English Channel yesterday."

Jugoslavs Bag Italian Plane

BELGRADE (AP)—Unofficial reports said an Italian bomber crashed early today near Danilovgrad, in southern Yugoslavia, near the Adriatic coast, after Jugoslav anti-aircraft guns had fired at the plane. There was no immediate confirmation.

Four members of the plane's crew were reported killed and one injured. Italian uniforms and insignia were found in the wreckage.

Axis Ministers Meet in Germany

BERCHTESGADEN, Germany

(AP)—Foreign ministers of Germany, Italy and Spain met today in this city near Hitler's Bavarian mountain retreat where many conferences of far-reaching import in the past have been held.

Informed sources in Berlin said Hitler would have individual talks with the Spanish and Italian

visitors and then hold a joint conference, probably later today.

Observers interpreted the visit of the Spaniard, Ramon Serrano Suner, as indicating that Falangist Spain now is in the Axis camp and apparently ready to take a more active part in developments.

Berlin diplomatic circles reported Axis plans for drives on Greece and Gibraltar were to be discussed by the German-Italian and Spanish leaders.

USUAL PRACTICE

Italian Foreign Minister Ciano's arrival came as no surprise following the visit to Hitler in Berlin last week of Soviet Premier Molotov.

Axis representatives, it was pointed out, always have conferred immediately after conferences with third parties.

Informed sources said that Ciano, besides learning all about Molotov's visit at first hand, also could bring first-hand information to German leaders on Mussolini's talks last week with Romanian chief of state General Ion Antonescu.

Ribbentrop met both visitors, Serrano Suner at the Berchtesgaden station and Ciano in Salzburg.

LUNCED IN CASTLE

The Italian and Spanish foreign ministers were guests of Ribbentrop at a luncheon in Fusch Castle, near Salzburg, after which Baron Alexander von Doernberg, German chief of protocol, called for Serrano Suner at his hotel and took him to the Derghof, Hitler's mountain chateau.

There, Hitler took the Spanish minister to his office. Ribbentrop was present at their talks.

Victoria Companies Get War Contracts

OTTAWA (CP)—Contracts awarded by the Department of Munitions and Supply during the week ended November 8, numbered 2,518, with a total value of \$6,638,016. Munitions Minister Howe has announced.

Contracts over \$5,000 issued included:

Foodstuffs: Burns and Co. Ltd., Calgary, \$7,164; Borden Co. Ltd., Vancouver, \$6,588; W. H. Malkin Co. Ltd., Victoria, \$8,540.

Kitchen and dining-room equipment: Medalta Potteries Ltd., Calgary, \$27,750.

Lumber and building supplies: Cameron Lumber Co. Ltd., Victoria, \$6,468.

Construction and defence projects: City of Edmonton, \$33,538; Poole Construction Co. Ltd., Edmonton, \$787,918.

British Casualties

LONDON (CP)—The War Office's 88th casualty list, issued today, contains the names of 1,009 prisoners of war, 30 men previously missing and now known to be prisoners, four who are safe, 24 who were killed, 84 wounded, 11 who died of wounds, and 28 who died.

At least three-fourths of the plants that have become economically important in the United States are from foreign countries.

YOUNG MEN'S CLUBS HEAR 'Y' OFFICIAL

Murray G. Ross, Toronto, national Y.M.C.A. young men's work secretary and program director, addressed members of the Phalanx Club at their dinner meeting at the "Y" as part of the program in connection with his visit to the local organization.

Mr. Ross is on a nation-wide tour of Y.M.C.A. centres, conferring with and suggesting ideas to officials in regard to young men's activities. Indisposed with a bad cold and having to remain in bed for a good part of his stay, the national secretary did not get

done all of that he expected. His visit was a helpful one, however, and his suggestions welcomed.

Mr. Ross is promoting plans for the federation of the Young Men's Clubs of Canada, to be held in Toronto next year. To unite all these clubs into one large organization is his hope.

Following his address at the Phalanx Club, Mr. Ross met members of the young men's committee at the home of Vivian Shoemaker, local Y.M.C.A. young men's secretary.

J. M. Thomas, J. Gilles and J. Green of Victoria, took part in a discussion on the proposed new Teachers Act. Paul Whitley and M. Atkinson, Vancouver, addressed the meeting in federation matters.

Delegates were shown drawings and equipment, used in modern methods of teaching students of industrial arts, on display in John Shaw High School, under the supervision of Inspector S. Jones.

Teaching methods have not kept pace with the advance in industrial methods," said Mr. Jones. "Some instructors are unaware of the latest developments and they are only just

learning how to combine practical training with theory. They don't take enough advantage of free equipment and literature turned out by industrial firms for their use."

Miss Margot Greer
Wed at Quiet
Ceremony

A military wedding of interest throughout Canada took place this morning at 11 o'clock at Our Lady Queen of Peace Church, Esquimalt, between Margot, second daughter of Colonel H. C. Greer, Acting Adjutant and Quartermaster General of M.D. 13, Calgary, and Mrs. Greer, 1394 Esquimalt Road, and Captain C. M. R. Elmsley, Royal Canadian Ordnance Corps, Esquimalt, son of the late Mr. and Mrs. R. R. F. Elmsley of Toronto and Windsor, Ont.

Capt. the Rt. Rev. Monsignor M. J. O'Gorman performed the ceremony and Capt. the Rev. A. B. Wood, naval chaplain, was at the organ. Mass was served by a member of the bridegroom's company.

In the unavoidable absence of her father, who was transferred from Work Point to Calgary recently, the bride was given in marriage by her brother, Lieut. James H. Greer, R.C.A.S.C. Her fair, petite prettiness was enhanced by her smart dressmaker suit of handwoven tweed in Sandringham blue, fastened at the side in the new military effect, with one of the new upswipe berets in Sandringham blue, and accessories in burgundy tone. Her corsage bouquet was of gardenias.

Miss Kathleen Greer was her sister's only attendant, in a graceful frock of rosewood wool, with turban to match, and a corsage bouquet of rosebuds and violets. Colonel Vincent McKenna, M.C., R.C.A., supported the bridegroom. After the ceremony, members of the bridal party and a few intimate friends were welcomed at the home of the bride's mother. Refreshments were served from a table decorated in the R.C.O.C. colors and centred with the tiered cake, which the bride cut with her husband's sword, to the honoring of the customary toasts in time-honored fashion.

Capt. and Mrs. Elmsley left on the afternoon boat for Vancouver, en route for a honeymoon in an unannounced destination. The bride donned a smart topcoat of handwoven tweed in rosewood tone over her wedding ensemble.

Engagements

CARSWELL—LEONARD

The engagement is announced by Mr. and Mrs. A. R. Leonard, formerly of Winnipeg and now of Vancouver, of their only daughter, Helen Isabel, to Mr. William John Carswell, Royal Canadian Ordnance Corps, C.A.S.F., Victoria, only son of Mrs. Carswell of Vancouver and the late William Hardie Carswell. The wedding will take place early in December.

W.A. Britannia Branch No. 7, Canadian Legion B.E.S.L., will hold their monthly birthday party at the home of Mrs. H. Jarvis, 1239 Vista Heights (formerly Seaview Avenue), Tuesday at 8 p.m. Members are asked to attend the funeral of Sir Percy Lake at Christ Church Cathedral, Tuesday afternoon, meeting outside the church at 1.50.

A drill practice is called for 2 o'clock Wednesday, all newly-elected officers and drill team to be present. The bazaar will be officially opened by Mrs. Mayhew at 2.30 on Friday, November 29, and there will be cards and dancing at 9 o'clock. Sister Wright gave a report on the knitting being done for the Three Forces. A social time was held at the close.

ST. MARY'S TROOP
Thirty scouts and leaders attended the meeting of St. Mary's Troop on Friday evening, opened by Selby Taylor. Michael King took the scout promise and was invested, being placed in the Hawk patrol. After inspection and the collection of dues there was a period of drill. This was followed by some lively games, "Clear Decks" and "B.P. Says." Instruction was in signaling and Scout's pace. The troop leader then gave a short talk. After some first aid practice and blind fold boxing the meeting closed.

Most animals and many birds, says a biologist, require three types of "cover" for safety and contentment: 1, ordinary cover to conceal normal activities; 2, denser cover for nesting and breeding.

HOW TO OVERCOME ITCHING PILES

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool, is nature's warning and proper treatment should be secured at once. For this purpose get from Modern Pharmacy and Cunningham Drug Store, or any druggist, a package of Hemoroid and use as directed. This formula, which is used internally, quickly relieves the itching and soreness and aids in healing the sore, tender spots. Hemoroid is highly recommended, is easy to use and it cures the height of folly for anyone to risk an operation when a simple remedy which is as pleasant to use may be had at such a reasonable cost.

United Draws, Nanaimo Wins

Sports Mirror

By PETE SALLAWAY

NICEST little run-around I've seen in a long time. Those were the words of Ivan Temple, coach of Victoria's new ice hockey team, who dropped into the office to tell us his difficulties in trying to land a berth in the Intercity League being operated with clubs from Nanaimo, New Westminster and Vancouver.

It was the intention of the Victoria club to play in the league, with all its home games being held on the Nanaimo ice surface. Now it looks doubtful if the local squad will get in. The reason—strange as it may seem—because Victoria would prove too strong for the other clubs. Last Wednesday, Temple took seven of his boys up to Nanaimo for a practice. On arrival, he found the Nanaimo officials had arranged a practice game with the Nanaimo Sars, that town's entry in the Intercity League.

Despite the fact Victoria was without the services of four of its outstanding players the result was a 2 to 2 draw. And to crown it all Temple, who had been out of organized hockey for 10 years, held down one of the defence berths on the local squad. "The boys played without proper equipment and we had a 17-year-old youngster named Curry in goal, and he stood up wonderfully well," Temple said. "You can imagine what kind of shape I was in after only two practices, but was able to hold my own even when the Nanaimo lads attempted to rough it up. The whole trouble is that our club showed too much class and they don't want us in the league. And the funny part is that they asked us to organize a club as it would help them out in getting across the league."

Following the game Nanaimo wanted five of the Victoria players, Patrick, Petticrew, Anderson, Ritchie and Scott, to travel up there last Saturday night to play (Turn to Page 16, Col. 4)

Dominoes Win Listless Game

In one of the most listless inter-city basketball exhibitions seen here, Victoria Dominoes on Saturday night marked up a colorless 33 to 25 victory over the visiting Vancouver Angelus Hotel cagemen. The local boys were far from their best form, but nevertheless utilized their superior height to good advantage, out-scoring the terminal city team in three of the four quarters.

Dominoes went into an early first quarter lead and were never headed. At the end of the first session the score stood at 9 to 4 for the local quintette, big Ben Aceman supplying six of the points. The Dominoes' rookie did some cute faking under the basket, deceiving the Vancouver boys out of the play and then tossing up clutch scores.

In the second period, still not flashing their customary drive, Dominoes rode roughshod over the opposition, outscoring them 14 to 7. The smaller Vancouver team had trouble locating the hoop, and their shooting, for a first class team, was badly off.

Vancouver settled down, however, in the third quarter and, taking advantage of some careless Domino passing and shooting, began to provide some interest for a gallery of about 400, which hitherto had been silent. At the three-quarter interval the locals were still leading, holding down the long end of a 27 to 22 score.

The last quarter was featured by poor shooting by both sides, Vancouver garnering four points and the Dominoes six. Aceman, for the second successive week, was high man for the Victoria team, getting 12 points. Lee, one of the real bustlers of the Angelus aggregation, dropped in eight points, all from field goals.

Teams and scorers follow: Vancouver: Angelus Hotel, McDonald 3, Lee 8, Bumstead 4, Marsh 2, Kelly 6, Wright 2. Dominoes: Davies, Jackson 4, Nicol 4, Baker 6, A. Chapman 3, C. Chapman 4, Aceman 12.

In a senior A preliminary, Ian McKeechie and "Red" Mason paced the Tillikum Arrows to a 44 to 36 victory over West Road. They scored 14 and 10 points, respectively, while Ralph Michell equalled McKeechie's efforts for the West Road.

In the other preliminary, Y.M.C.A. defeated Fairfield, 21 to 13. In games at the High School, K.V.'s defeated Cloverdale Aces, 31 to 4; St. Louis College defeated K.V.'s, 56 to 24, and Ramblers nosed out the Chinese Students, 17 to 16.

Lot of interest at Saturday's championship show of the Vancouver Island Dog Fanciers' Association, at the Crystal Garden, centred around the Tahltan bear dog, above, exhibited by T. W. S. Parsons, Commissioner of B.C. Police. It is a new breed developed by the Tahltan Indians on the Stikine River. It is hoped to have the breed recognized by the Canadian Kennel Club.

Torchy Triumphs

37th Bike Victory

CHICAGO (AP) — William (Torchy) Peden of Victoria, B.C., and Cecil Yates, Chicago, stole a lap in the final hour to win the 43rd International six-day bicycle race in the Chicago Stadium. The race ended at midnight Saturday.

The winning team traveled 2,523 miles and nine laps. Doug Laas Peden, Torchy's brother, paired with Archie Bollaert, Detroit, finished in a mileage tie with the other teams, one lap back. Their sprinting point total of 1,244 gave them second position.

This was Torchy's 37th six-day victory, Yates' 12th. Torchy has won more races than any cyclist in the world.

Beats Boston For Second Week-end Win

With a little more than two weeks of National Hockey League play in the record books, Boston Bruins find themselves in the embarrassing position of being last in the league.

True, they have played only three games, while the majority of the clubs have gone through five contests. But even then their record in their contests so far isn't anything for Manager Art Ross to get enthused about, although at the start of the season Ross pronounced that this was the best Bruins team ever.

All that the Bruins have to show from their three games is a draw with Montreal Canadiens, who have been able only to mark up two ties in five games. The other two contests went to the opposition, with the Bruins being defeated 6 to 5 by Chicago Black Hawks and 4 to 1 by Toronto Maple Leafs.

The Bruins bowed to the Leafs last night in Boston, giving Toronto its second victory of the week-end. On Saturday night at home the Leafs topped Canadiens 4 to 2 and now dwell at the top of the standing two points ahead of the Black Hawks and Detroit Red Wings.

In other Sunday night contests the Hawks and Canadiens tied 4 to 4, while the Wings blanked New York Americans 2 to 0. The Wings came out of the week-end firing with the second best record, for they played a 3 to 3 tie with New York Rangers in New York on Saturday night.

FOUR STRAIGHT WINS

The Leafs, who have now won four straight games since being beaten by Rangers on the opening night, were led during the week-end by defenseman Wally Stanowski. Stanowski, rapidly developing into one of the best rushing rearguards in the league, scored a goal against both Boston and Canadiens.

Others to bag scores against the Bruins, who were held to a make by Bill Cowley, were Dave Schirner, Hank Guldup and Billy Taylor. Schirner, Lex Chisholm and Syl Apps, Toronto scorers against Canadiens.

Five Canadian rookies marked up their first N.H.L. goals in the week-end play. Elmer Lach and Jack Adams tallied against the Leafs, while Joe Benoit, Ken Reardon and Johnny Quilty scored against the Hawks.

The other Montreal score against the Hawks went to Tony Demers, while George Allen scored twice for the Hawks and single tallies were run in by Doug Bentley and Mush March. Quilty's goal came with less than four minutes of the game left, giving Canadiens a split in points.

Stewart Sparks Esquimalt to Win

Veteran Scotty Stewart, playing inside right, was the shining light yesterday afternoon at Bullen Park, when he found the hemp three times to give his Esquimalt teammates a 3 to 2 victory over Charlie Lewis' Victoria City lads in a Victoria and District Football League tussle.

Present standings in the league gives Victoria West the leading spot, with the city second and Esquimalt third.

City went out in front in the opening 45 minutes when right-winger Doug Gent's cross was headed between the posts by centre forward Sage.

In second-half play Esquimalt rallied and it wasn't long before Stewart scored on a first-timer, following a nice Esquimalt movement up the field. Fifteen minutes later this same player smashed the leather in the hemp to put his team in the lead.

The score was tied not long after when Bill Gornall found the net.

For the remainder of the game the City had the best of play, but failed to make any further progress on the scoreboard. In late play, during an Esquimalt breakaway, City's fullback, Art Brookman, miskicked, and Esquimalt's Stewart grabbed the ball and scored.

tallon, Canadian Scottish Regiment, and 5th Brigade N.P.A.M. resulted in a win for the former, 16 to 6. The scheduled match between the Navy and 5th Brigade R.C.A. was called off owing to the latter being unable to field a team.

Military Funeral For Sir Percy Lake

Burial with full military honors was arranged today for one of the Empire's most distinguished soldiers, Lieutenant-General Sir Percy Lake, K.C.B., K.C.M.G., who died Saturday night in the Royal Jubilee Hospital. The service will be conducted in Christ Church Cathedral tomorrow at 2, with Archdeacon A. E. de L. Nunns and Bishop H. E. Sexton officiating. Commodore W. J. R. Beech, R.C.N., will represent the Governor-General.

Sir Percy, taken ill on the eve of Remembrance Day, was in his 86th year.

Tributes came from many sources, honoring the achievements of the courtly, soldierly figure who had been identified with Victoria's life for the last 20 years. None were more sincere than those of returned soldiers whose friend he was.

Lieutenant-General Lake had a brilliant military career in the British Army, embracing service for many years in India and Canada, in both of which countries he

held posts of high distinction. He was Quartermaster-General in Canada from 1893 to 1898, Chief of the Canadian General Staff from 1905 to 1908 and Inspector-General from 1908 to 1910.

MOVING SPIRIT IN CANADA

He had a larger part than any one else in the reorganization of the Canadian Militia on up-to-date lines at the close of the last century. He was also the moving spirit in the great development of the Canadian forces in the years 1904 to 1910, which largely enabled such speedy movement of troops from Canada after war broke out in 1914.

After important services during the Great War, in the Mesopotamia campaign and at the Munitions Ministry in London, Sir Percy retired and came to live in Victoria with Lady Lake in 1923.

Throughout the succeeding years he was a forceful and impressive personage in this country. In 1926 he demonstrated his concern for the Dominion's fighting men by becoming, at the age of 71, the first president of the Canadian Legion of the British Empire Service League, welding into one strong organization the various veterans' organizations which had previously acted independently.

Sir Percy Lake was born in 1855 at Tenby, South Wales, and belonged to a distinguished military family of Great Britain. His grandfather served with Wellington at Waterloo as a Guards officer.

His father was the late Lieut.

Colonel P. G. B. Lake, who served in Canada with the 54th Regiment and afterwards held a command with the 100th Regiment of Canada. His mother was Margaret Phillips of Quebec City, whose great-grandfather, Captain John Phillips of the 47th Regiment served with Wolfe at the taking of Quebec and subsequently settled there. His brother, Sir Richard Lake, former Lieutenant-Governor of Saskatchewan, lives in Victoria.

ENTERED ARMY

General Lake entered the British Army as a subaltern at the age of 18 years, joining the East Lancashire Regiment in India, where he served for six years, including the Afghan War. After passing with honors at the staff college at Camberley, in 1884, he was at the Intelligence Department of the War Office for a time before seeing active service in the Egyptian campaign of 1885. He returned again to the Intelligence branch and became a member of the Colonial Defence Committee, now the Imperial Defence Committee.

He was appointed Quartermaster-General in Canada in 1893, in which post he did much effective work and laid the ground-work for the organization of a Canadian army. After representing the Dominion on the joint commission which in 1898 reported on the defence of Canada, Sir Percy's term expired and he rejoined his regiment in India. He was Quartermaster-General at army headquarters in London

campaign, and so did not personally see the finish of the expedition, but his successor, General Sir Stanley Maude, acknowledged that his subsequent triumph was largely due to General Lake's careful preparations. Sir Percy Lake's efficient handling of his responsible command in Mesopotamia was fully acknowledged by the official history.

General Lake remained in England, occupying an important post at the Ministry of Munitions until the end of the war. He retired from military service in 1919. His distinguished services over nearly 50 years brought him many honors. He gained the C.B. in 1902, the C.M.G. in 1905, and in 1908 was created K.C.M.G. In 1916 he was created K.C.B.

CONCERN FOR VETERANS

Ever since his retirement from military service, Sir Percy Lake's principal concern has been to better the lot of his former comrades in arms. Despite the handicap of increasing years he remained active in the interests of the great organization he helped to create, and endeavored himself to all ex-servicemen by his kindly disposition and interest in their behalf.

He stepped down from the post of president of the Canadian Legion in 1928 to make way for General Sir Arthur Currie, and as a memorial to the work and time devoted by him to organizing and establishing the Legion he was made a life member of the Dominion Council. Six years later he succeeded, on the death

Lieut. Gen. Sir Percy Lake... as one of the greatest soldiers of the Empire.

from 1899 to 1904, and during the South African War was in charge of mobilization in Britain, his work being praised by the Royal Commission which investigated that campaign.

The second and most important chapter of General Lake's official work in Canada opened in 1905 with his appointment as Chief of the General Staff in Canada. In conjunction with Sir Frederick Borden, he reformed the whole militia system to conform with the British plan and initiated the Militia Council of Canada.

INSPECTOR-GENERAL

In 1908 he became Inspector-General, a post he occupied for two years, enabling him to follow up the effect the reorganization had upon the efficiency of the militia. Sir Percy's connection with the Canadian Militia ended late in 1910, and on his departure for an army post in India the Canadian Defence Department published a special order setting forth the high appreciation held by the Canadian Government of General Lake's work in the interest of the Canadian forces.

Sir Percy was a divisional commander in India for two years, and in 1912 he succeeded his friend, Sir Douglas Haig, in the high military post of Chief of the General Staff in India. During the three years he held this position, Sir Percy faced stubborn governmental resistance, made on the grounds of economy, to his plans for maintaining the efficiency of the forces, and it was due to his efforts that the Indian Army was maintained at a high state of perfection, enabling it to be ready for immediate service when the Great War broke out.

COMMANDED IN MESOPOTAMIA

In January, 1916, when the health of General Sir John Nixon broke down, Sir Percy Lake took over command of the Mesopotamian Expeditionary Force, and during the better part of that year reorganized and built up strong forces and equipment in preparation for a sustained offensive.

In August he was called to England to testify before the Royal Commission sitting on that

of General Currie, to the high office of grand president of the Legion, which post he held at his death. He was also a life member of the Pro Patria Branch, Victoria.

The tall, soldierly figure of Sir Percy was prominent at most gatherings of community interest and army reunions in Victoria. He took a deep interest in the affairs of the city and was active in the creation of the Corps of Commissioners here.

QUIET CHARITY

His charity was unostentatious but very real and nothing was too much trouble for him to undertake, if he could be of service to others. Many an ex-serviceman has cause to revere his memory for some personal beneficence or work done on his behalf.

He was a regular communicant at St. Mary's Church, Oak Bay, and was a member of the Union Club and of the United Services Institution.

Sir Percy is survived at the family residence, 1004 Terrace Avenue, by his widow, Lady Hester Lake, whom he married in 1891; also by his brother, Sir Richard Lake and five nephews and one niece. Lieut. P. W. Belson, Capt. H. J. Lake, Capt. J. F. Lake, R. L. Lake and L. C. Lake; Mrs. J. C. Burbridge, Lahore, India, and Miss Katharine Lake, Victoria. His only sister, Mrs. W. H. Belson, predeceased him.

McCall Brothers are in charge of arrangements for the funeral.

CHEMAINUS

CHEMAINUS—Arbutus Chapter Imperial Order Daughters of Empire met at the home of Mrs. Herbert Wilson, the regent, Mrs. J. Sandland, presiding. The chapter stood in silent tribute to men who had lost their lives serving in the Canadian Navy.

Resignation of Miss M. Simpson was accepted.

The chapter will ask the help of other organizations to co-operate in providing Christmas cheer for local men on active service.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ready to Go

The liver should purify your blood daily. If this fails, it is not flowing freely, your food does not digest, it just sits in the bowels. Get more bile into your stomach. You get constipated. Bile goes on into the body, and you feel much, much and the world looks pink.

A new blood movement does not "value" of the cause. You need something that works on the liver as well. It takes these good, old Carter's Little Liver Pills to get these thousands of bile flowing freely and make you feel "up and up". Bile flows and you feel the bile flow freely. They do the work of nature but have no animal or mercury in them. Ask for Carter's Little Liver Pills by name. I shudder to think anything else.

They Stay Brighter Longer

River Cut Rock to Make Grand Canyon

In the northern part of Ariz. a traveler may find one of the great wonders of Nature. It is known as the Grand Canyon. I have visited the Grand Canyon only once, and that was years ago, but the memory of its bright colors is still fresh in my mind. It contains "painted rocks," and they are indeed a sight to behold.

A view of Grand Canyon.

There are layers of rock which are red. Other layers are purple, pink, yellow or brown. Nature made them that way.

Vast ages ago, the making of the Grand Canyon was started. A river wore its bed into a long stretch of rock. Slowly the river cut away the rock.

Year after year the river flowed, and at the end of each year the channel became a little deeper. Thousands of years passed—thousands of them. The river bed kept getting lower and lower.

Today the river still exists, but it is not nearly so broad as it once was. At the bottom of the Grand Canyon, the Colorado river flows. This important stream rises in the state of Colorado, and passes through Utah, Arizona and a small stretch of Mexico. It empties into the Gulf of California.

In making the Grand Canyon, the river but through layers of sandstone, shale and limestone. Then it reached a vast mass of granite, and wore through this hard rock to a depth of more than two-fifths of a mile.

The deepest parts of the canyon are now more than a mile below the sides. The gorge is in some places from 12 to 18 miles wide. Elsewhere the distance from one side to the other is a mile or less. The average width is about 10 miles.

Dorothy Dix's Letter Box

DEAR MISS DIX—Will you settle an argument that has been getting warmer every day for the last month between some friends and me? They insist that the term "bachelor girl" when applied to a woman denotes that she is an unmarried mother. I say that they are entirely wrong and that it is a term of respect assumed by many women who are of the highest character and respectability, but who do not like to be called old maids. Who is right? ONE OF THEM.

Answer: You are. Absolutely. The term "bachelor girl" carries with it not the slightest hint of disparagement. Many women who think there is some opprobrium in the appellation "old maid" or "spinster" have adopted it.

However, it has made no general appeal because to most of the successful, independent, intelligent, middle-aged women to whom it might have been applied it seemed a silly camouflaging of a fact that could not be ignored. They were not girls to begin with, and they were single because they wanted to be so, so why dress the situation up?

DOROTHY DIX.

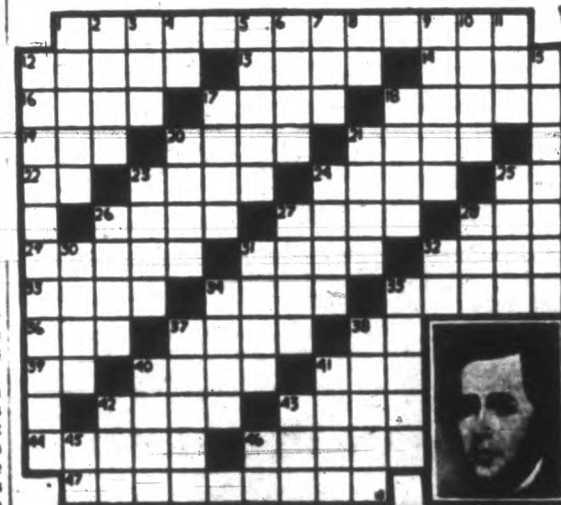

DEAR MISS DIX—The other day I fainted and the man to whom I was betrothed broke the engagement, giving the excuse that he was not rich enough to support a delicate wife. Has this anything to do with love? GERTRUDE.

DEAR MISS DIX—I have been a personal secretary for the last 15 years to a very fine gentleman. He wants to divorce his wife and marry me and I don't know what to do, as I don't feel that I could be happy with him, knowing that I have taken him away from his family. What shall I do? J.M.D.

Answer: You know very well what to do. Get another job and tell your philandering employer to go back to his duty. Don't have a hand in wrecking another woman's home.
